

IENAI [SPACE]

WE.  
ARE.  
HIRING!

→ Fullstack [Engineer]

We're looking for a **Full-stack developer** to join our software team!

The role demands a mix of Back-end and DevOps responsibilities, with a support/ MVP-developer role for front-end development. Specific responsibilities include maintaining existing tools, leading new feature development, managing our GO tool and landing page, designing new tools, maintaining architecture, and overseeing AWS infrastructure.

## Qualifications & skills

### MUST HAVE

- Bachelor's degree in Computer Science, Aerospace Engineering, or related field OR Vocational training ("Formación Profesional") with an education in Computer Science, or related field.
- 3+ years of PROVEN track record in software development.
- JavaScript/Typescript.
- Python.
- API development, ORM, testing, and database management (PostgreSQL, MySQL, InfluxDB, QuestDB).
- AWS services and cloud infrastructure (EC2, RDS, S3, EKS, etc.), cloud deployment, and CI/CD pipelines.
- React.js, Next.js, JavaScript/TypeScript, CSS (Tailwind), Redux.
- Docker, Kubernetes, Terraform, and Linux server setup.
- Spoken and written proficiency in English.
- Motivated, organized, detail oriented, HANDS-ON & proactive.

### NICE TO HAVE

- Julia.
- Cesium.js.
- General knowledge about VPN infrastructure and WordPress applications.
- A background or experience in aerospace engineering software.
- Experience in a startup environment.
